

Hello! I have the pleasure to present today our first theme released by PrestaDesigner.com. This is a free theme for Prestashop 1.4.X and we appreciate every feedback that it will get.

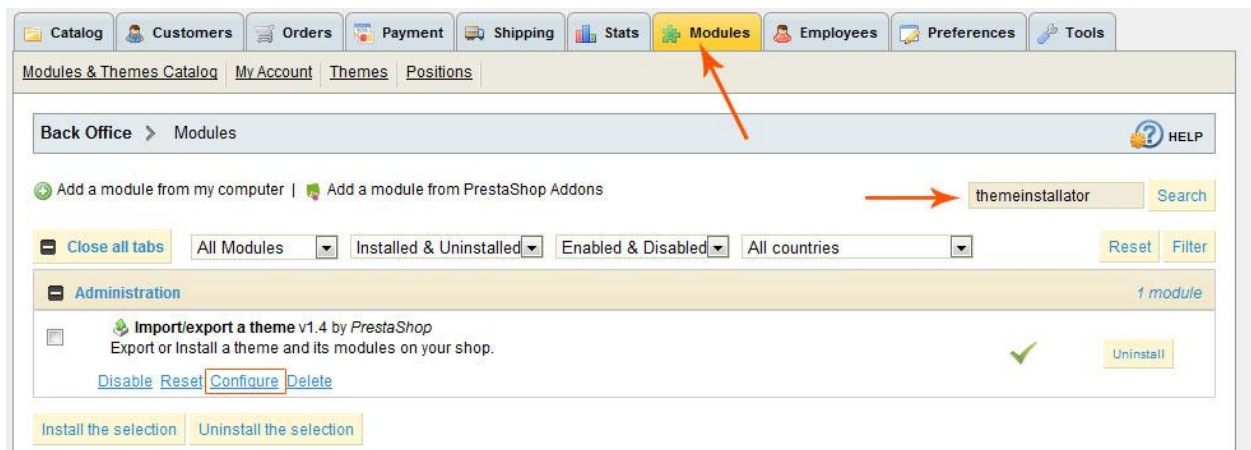

Installation Instructions

A - Using Theme Installator Module

First download and unzip the file that you have received via email. Once you have unzipped the files you will have this folders:

Next go to **Prestashop Administration Panel > Modules** and activate **Theme Installator Module**. If you already have this module installed, click on **Configure** link.

Now on **Import from your computer** click **Browse** and select the zip file from the installer folder, then click **Next**

The screenshot shows the 'Back Office' interface with a top navigation bar containing icons for Catalog, Customers, Orders, Payment, Shipping, Stats, Modules (highlighted), Employees, Preferences, and Tools. Below this is a sub-navigation bar with links for Modules & Themes Catalog, My Account, Themes, and Positions. The main content area is titled 'Back Office > Modules' and includes a 'HELP' icon. A module bar at the top of the content area shows 'Module themeinstallator' with links for 'Back', 'Manage hooks', and 'Manage translations' (with flags for US, FR, ES, DE, IT). The 'Import from your computer' section is highlighted with a yellow background and contains an 'Archive File' input field with the path 'C:\Users\WLine\Desktop' and a 'Browse...' button. Below the input field is the text 'Where is your zip file?'. A 'Next' button is located to the left of the input field. The 'Import from the web' section below it has an 'Archive URL' input field with 'http://' and a 'Next' button. The 'Import from FTP' section at the bottom has a 'Select archive' dropdown menu and a 'Next' button.

Module **themeinstallator** [Back](#) [Manage hooks](#) [Manage translations:](#)

Import from FTP

Select archive

[Next](#)

Make all of this selections and then click **Next**

The screenshot shows the PrestaShop Modules & Themes Catalog interface. At the top, there is a navigation bar with tabs for Catalog, Customers, Orders, Payment, Shipping, Stats, Modules (highlighted), Employees, Preferences, and Tools. Below this, there is a sub-navigation bar with links for Modules & Themes Catalog, My Account, Themes, and Positions. The main content area is titled 'Back Office > Modules' and includes a 'HELP' icon. A message box states: 'The following themes were successfully imported: • clothetheme'. Below this, there is a section titled 'Select the theme's modules you wish to install' with a checkbox for 'blockhomeslideshow' and a warning: 'Warning: a module with the same name already exists'. The 'Native modules configuration' section has three radio buttons: 'Current configuration', 'Theme's configuration' (selected), and 'Both'. The 'Theme images configuration' section has three radio buttons: 'Add new configuration', 'Add all (you may lose your current config)' (selected), and 'Don't change anything'. At the bottom, there are 'Previous' and 'Next' buttons, with 'Next' being the active button.

A page with the modules installed it will be showed to you. All you have to do is to click **Finish**

Your theme is almost installed! We have to finish few more steps :)

Go to **Modules>Themes**, here scroll a little bit down, till you will find some thumbnails with themes. Here select **clothetheme** and click save

Themes

In order to use a new theme, please follow this steps:

- Import your theme with using this module: [Theme installer](#)
- When your theme is imported, please select the theme in this page

Save

On the final step we will have to go to **Admin > Preferences > Images** and here click **Regenerate thumbnails**.

Back Office > Preferences > Image

➕ Add new

Page 1 / 1 | Display 50 / 9 result(s) [Reset](#) [Filter](#)

ID	Name	Width	Height	Actions

1	small	45 px	45 px	 
2	medium	80 px	80 px	 
3	large	300 px	300 px	 
4	thickbox	600 px	600 px	 
5	category	500 px	150 px	 
6	home	129 px	129 px	 
7	large_scene	556 px	200 px	 
8	thumb_scene	161 px	58 px	 
9	home_special	145 px	145 px	 

[Delete selection](#)

Regenerate thumbnails

Regenerates thumbnails for all existing product images.

⚠ Please be patient, as this can take several minutes
Be careful! Manually generated thumbnails will be erased by automatically generated thumbnails.

 **Regenerate thumbnails**

Select image 

Erase previous images ☒ Uncheck this checkbox only if your server timed out and you need to resume the regeneration.

[Regenerate thumbnails](#)

Well that's it. If you have followed step by step this tutorial, you should have your theme installed successfully.

However if you prefer to install this theme manually, I have created a tutorial for you as well. Please refer to the next page.

B - Install Clothes Theme Manually

To install a theme manually it will take a little bit of time but don't worry I will try to explain every step in detail.

Step 1

Go to manual_install folder . Here you will find this folders:

- **img** (contains the logo)
- **modules** (contains the home slider files)
- **themes** (contains the theme files)

Step 2

Using an FTP client, upload the **img, modules & themes** folders on the root of your website (where prestashop is installed).

Step 3

Go to **Prestashop Admin > Modules > Themes** and activate the theme

Step 4

Go to **Admin > Preferences > Images >**. Here regenerate all the pictures.

Step 5

Go to **Admin Modules > Other Modules** and install **Slide Show Home Block v0.1**

Step 6

Order the modules as it showing in the screenshot below:

Homepage content - 1 module (Technical name: home)

1

 **Featured Products on the homepage v0.9**
Displays Featured Products in the middle of your homepage.

Top of pages - 8 modules [A hook which allow you to do things a the top of each pages.] (Technical name: top)

1

 **Language block v0.1**
Adds a block for selecting a language.

  

2

 **Currency block v0.1**
Adds a block for selecting a currency.

  

3

 **Permanent links block v0.1**
Adds a block that displays permanent links such as sitemap, contact, etc.

  

4

 **Quick Search block v1.0**
Adds a block with a quick search field.

  

5

 **User info block v0.1**
Adds a block that displays information about the customer.

  

6

 **Pages not found v1.0**
Display the pages requested by your visitors but not found.

  

7

 **Search engine keywords v1.0**
Display which keywords have led visitors to your website.

8

 **Slide Show Home Block v0.1**
Adds a slide show to the home page.

Step 7

If you want to show a specific products on the carousel from the homepage, you will have to select "display on sale" on the product page.

That's all. You should have the Clothes Theme installed now. Please note that this theme being free is not coming with support or anything. You are allowed to use it for your personal projects but you don't have the right to claim that is your own.

If you want to modify the color combination or you need a custom design in prestashop you can contact us at: contact@prestadesigner.com or prestadesigner@gmail.com.

In the upcoming weeks we will concentrate to create some high quality - premium themes. Stay tuned!
